Ideation Phase: Empathy Map Canvas

Empathize & Discover — Understanding Key Olympic Stakeholders

Date: 31 January 2026	**Team ID:** NOC-PERF-2026
Project Name: Global Olympic Sports Performance Analysis	**Maximum Marks:** 4 Marks

Persona Empathy Map: Ms. Priya (NOC Performance Strategist)

SAYS

• "We need to know exactly which sports deliver the highest medal ROI per athlete."
• "How do our national athletes compare against top medal powerhouses like USA (735) and China (696)?"
• "We cannot afford to waste funding on low-yielding sports categories."

THINKS

• Wants evidence-based data to justify budget shifts toward high-efficiency sports like Rowing and Shooting.
• Worries about political backlash from domestic sports federations if their funding is cut.
• Aims to maximize the national medal haul in upcoming Summer and Winter Olympic cycles.

DOES

• Analyzes 8 years of historical medal data across 60 countries and 50 sports categories.
• Cross-references per-athlete medal yields using Tableau horizontal bar charts.
• Presents strategic investment recommendations to executive committee boards.

FEELS

• Pressure to deliver higher medal counts with finite national sports budgets.
• Confident when backed by rigorous data visualizations and empirical benchmarks.
• Determined to build a sustainable, world-class athletic pipeline.

Persona Empathy Map: Mr. Carlos (Sports Investment Analyst (Funding Agency))

SAYS

• "Financial investment doesn't always guarantee medal success—efficiency is key."
• "South America leads regional efficiency at 49.64%, followed by Europe/Asia at 45.98%."
• "We need to spot underfunded nations that are punching above their weight."

THINKS

• Seeks to identify overperforming, under-resourced nations like Slovakia, Georgia, and Ethiopia.
• Wants an objective metric (bubble size/efficiency %) to evaluate grant effectiveness.
• Aims to distribute global sports development funds fairly and strategically.

DOES

• Evaluates capital investment vs. medal outcomes using Tableau bubble charts.
• Analyzes regional efficiency breakdowns via pie and donut chart distribution.
• Structures international grant programs to support high-potential, underfunded regions.

FEELS

• Responsibility to ensure international sports development capital achieves maximum impact.
• Inspired by resource-constrained nations achieving extraordinary Olympic success.
• Cautious about allocating grants based on legacy reputation rather than true medal efficiency.

Persona Empathy Map: William Robert (Broadcast Journalist & Data Storyteller)

SAYS

• "Home nation advantage creates high-stakes drama—Japan achieved 105 host medals, USA 100, and China 93."
• "Medal totals fluctuate significantly over time, peaking at 363 in 2020 and landing at 334 in 2026."
• "We need compelling regional arcs showing Europe and Asia's historical dominance."

THINKS

• Needs clear, visual trends to engage millions of documentary viewers globally.
• Wants data-backed narratives explaining host country dominance and historic medal shifts.
• Focuses on weaving complex dataset insights into emotional human stories.

DOES	FEELS
• Tracks historical total medal trends from 1992 to 2026 using interactive line charts. • Compares host nation performances using multi-country bar charts. • Produces documentary episodes illustrating global sports landscape evolution.	• Excited by rich historical datasets that tell dramatic competitive stories. • Eager to simplify high-volume complex data into accessible visual narratives. • Passionate about connecting fans with global athletic achievement.
