# Project Phase: Project Demo Planning

Presentation Flow, Timelines & Responsible Members

| | |
|---|---|
| **Date:** 15 March 2026 | **Team ID:** PNT2026TMID092418 |
| **Project Name:** Global Olympic Sports Performance Analysis | **Maximum Marks:** 1 Mark |

## Project Demo Planning

| S. No | Demo Section | Description | Duration (mins) | Responsible Member |
|---|---|---|---|---|
| 1 | **Project Overview & Problem Statement** | Introduce the 1992–2026 Olympic dataset scope, problem statements for NOC strategy, grant funding, and broadcast media. | 3 mins | Team Lead |
| 2 | **Architecture & Data Pipeline** | Present Snowflake 7-layer architecture, data cleaning steps (imputation, deduplication), and star schema fact tables. | 3 mins | Data Engineer |
| 3 | **Scenario 1: NOC Performance Strategy** | Demonstrate per-athlete medal yield bar chart (Rowing 6.916, Shooting 6.731) and country benchmarks (USA 735, China 696). | 4 mins | BI Analyst (Ms. Priya Role) |
| 4 | **Scenario 2: Investment & Regional Efficiency** | Demonstrate Investment vs. Medal bubble chart (Slovakia, Ethiopia) and Regional Efficiency pie chart (South America 49.64%). | 4 mins | Funding Analyst (Mr. Carlos Role) |
| 5 | **Scenario 3: Media Storytelling & Trends** | Demonstrate Host Advantage bar chart (Japan 105) and 1992–2026 Total Medals line chart (305 to 363 to 334). | 4 mins | Data Journalist (William Robert Role) |
| 6 | **Conclusion & Technical Q&A;** | Summarize key analytical takeaways, present scalability roadmap, and take audience questions. | 2 mins | All Team Members |

## Demo Flow Summary

| Step | Activity | Notes |
|---|---|---|
| 1 | **Introduction & Problem Statement** | Welcome stakeholders, outline project objectives, and frame the 3 core personas (NOC Strategist, Investment Analyst, Data Journalist). |
| 2 | **Solution Overview** | Explain Snowflake ETL staging, data preparation quality checks, and Tableau/Streamlit dashboard integration. |
| 3 | **Live Feature Demonstration** | Walk through live interactive dashboards showing per-athlete yield, investment efficiency, regional pie charts, and trend lines. |
| 4 | **Q&A; Session** | Address technical queries on data ingestion, query performance optimization, and future predictive model scaling. |
